

Directions from Dalaman to Kalkan (Also see map and it is clear on Googlemaps) 2024

Exit airport, past Police check point.

Go north along dual carriageway for about 5km sign-posted to Dalaman/Mugla – roundabout
Go straight over roundabout for another 3km approx. – There is a long straight and then about
200 meters after a petrol station called Total Excellum the main road bears gently to the left
with traffic lights, and there is an unsignposted road, Gunlukluk Cd, between buildings to the
right with a shop on the corner called Ekinici Market. Turn right into the side road.

Follow it for about 1km – Roundabout junction with main dual-carriageway (Lime Green
Mosque on the left of the side road just before the junction).

Turn right onto the main road Sign-posted Fethiye/Antalya.

After 8km there is a tunnel and you need to pay about £1 in Turkish lira (Gocek Gecidi)
35km more to Fethiye but keep following the signs to Antalya for another 20km
(Kemer) - Main junction **turn right** signposted to **KAS/Antalya** (Beware! straight on is also
signposted to Antalya) but you need to **turn right** towards **KAS** – 50km to Kalkan.

Local to Kalkan

After passing many acres of greenhouses on a flat valley floor and a turning to Patara (to the
right) the main road is cut into the side of the mountain/hill. Over the top round, the corner
and down the other side (there is an amazing view of Kalkan from here). At the traffic lights
towards the bottom of the hill **turn right** into Kalkan.

Down the hill into the town past the banks etc.

Turn right at the roundabout go up the hill and over the crest.

200m on the left is Café Vita

Turn left into side street immediately at the side of the café, Ictepe Sk. Pass the first turning
to the left 100m to a crossroads. Kanarya Apartments are on the corner and our apartment is
to the left diagonally opposite (white building) in Akdeniz Cd.

Turn left and there is room to park in front of it.

Welcome! The apartment is on the second floor and the key box is to the right of the main
door.

On the return journey, once you have gone through the tunnel there is a garage on the right
after about 6 kilometers and, if you need to fill up your car before dropping it off at the
airport, you need to use this petrol station, as this is the last one on your side of the road
before the airport.

The roundabout with the ‘green mosque turning’ is about a kilometer after the filling station.
